

“Glycobiology SOS”

ASBMB Annual Meeting Workshop in 2020 (Abstracts Due in November)

See you next year!

April 4-7, 2020 | San Diego, Calif.

Format (60-90 minutes; Day TBD):

- Short Introduction to program (~5 min)
- Stations highlighting commercially available tools
- Stations where researchers can ask a Glycoscientist how to approach a problem
- Posters: research in the common fund (but would also present in the main meeting)

What other Glycobiology at the ASBMB

- **Glycosylation and Extracellular Matrix in Development, Repair, and Cancer**
(Bernadette Holdener, Lynn Sakai, Henrik Clausen & Joanne Murphy-Ullrich)
- **Glycosylation and Extracellular Matrix in Immunologic, Inflammatory, and Infectious Disease**
(James C. Paulson, Kim S. Midwood, Jamey Marth & Jeff Esko)
- **Glycosylation and Extracellular Matrix in Neurologic and Metabolic Diseases**
(David Vocadlo, Lance Wells, Fernand Gomez-Pinilla, & Fei-Fei Liu)
- **Post-translational modifications/signaling** (Pamela Stanley)
- **Two Spotlight sessions** (Guaranteed) & **a Tools-based spotlight session** (Possible)

If you are available to attend EB202/ASBMB2020 please email Cathrine Grimes or myself (nzachara@jhmi.edu).
