MConf Meeting Documentation – Version 1

Step 3: A web page will popup and the necessary modules will load until complete to provide you with a screen asking how you would like to join the meeting. Selection the “Microphone” option.

Step 4: In some cases your browser will ask if you will like to share your microphone with the application. Click on “Share selected device”.

MConf Meeting Documentation – Version 1

Step 5: An audio test dialogue box will pop up for you to test your sound settings. **(PLEASE use a headset or a set of earphones as this will prevent the annoying feedback and screeching noises.)** Speak a few words into your head set mic or if using earphones, into you laptop microphone. If you hear your self click on “Yes”. If not then click on “No” and follow the troubleshooting guide.

Step 6: Once our microphone has been tested and is working, you will have access to the main MConf meeting interface:

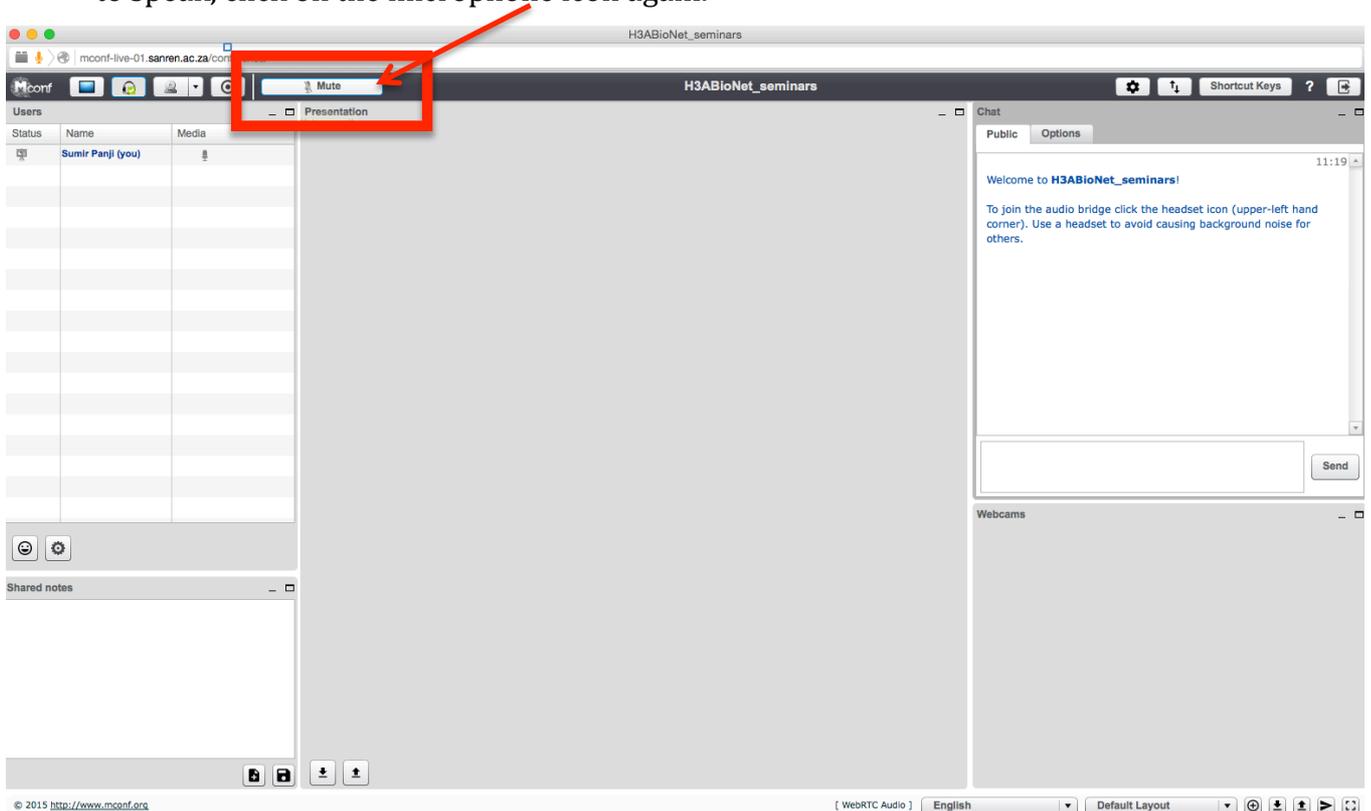

H3ABioNet

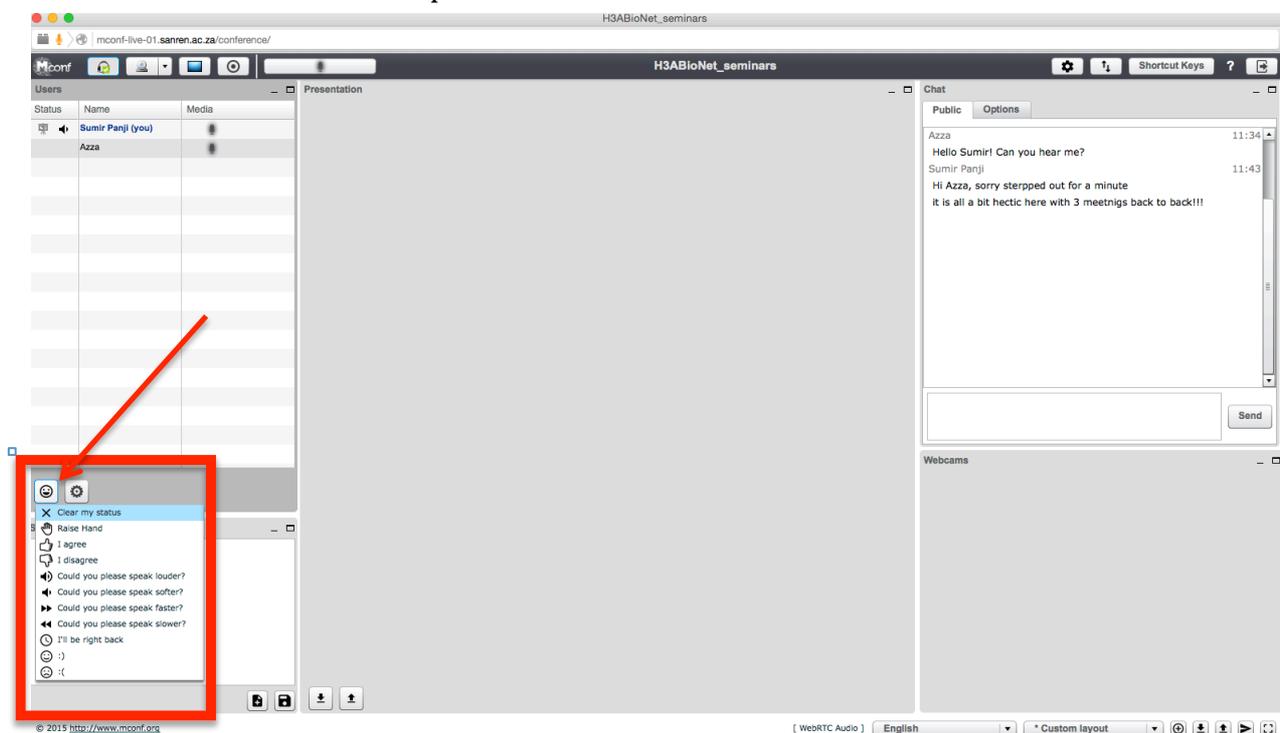

Pan African Bioinformatics Network for H3Africa

MConf Meeting Documentation – Version 1

Step 7: As common courtesy to other meeting attendees, please choose the click the microphone icon on the top middle left of the interface to prevent any background conversations by lab members filtering into the meeting room. To activate your microphone to speak, click on the microphone icon again.

Step 8: If you would like to ask a question or make a comment, click on the “smiley face” icon and select the relevant option.
