Light at the end of the Tunnel

Times are changing
Gone are the silos
Collaborations the new way
Accelerating discoveries toward better health

Disease is our enemy
Labs are the battlefield
Research is our weapon
We've got our game face on

We're puttin' the metal to the pedal
Through translation we're making an impact
Improving human health
We're making that light at the end of the tunnel

Our doctors and nurses see the smiles
From patients near and far
Given hope of a new tomorrow
And a happier and healthier life

Working together with the community
Arm in arm, hand in hand
Shaping the future of health care
The perfect circle from lab, to bedside, to community and back

We're puttin' the metal to the pedal
Through translation we're making an impact
Improving human health
We're making that light at the end of the tunnel

Moving forward, we've done a lot
So much more to go
And we're not about to back down
We're making the light at the end of the tunnel
We're making the light at the end of the tunnel
