Procedure For Obtaining Cells from the NHCDR Principal Investigator requests access to research grade iPSC line (Working Cell Bank: Principal Investigator requests access to cGMP WCB) grade iPSC line (Master Cell Bank: MCB) NOTE: This process is the same for all NHCDR Cell Lines ORDER THE cGMP GRADE LINE (ND50039) ORDER THE RESEARCH GRADE LINE (ND50038) ONLINE **ONLINE** (https://stemcells.nindsgenetics.org/) (https://stemcells.nindsgenetics.org/) Email is generated: **Ordering Process:** NINDS group 1. Complete MTA (available online) NCATS 2. Billing, Shipping info NIH OD 3. Statement of Research Intent, bio, etc. Other? NHCDR sends price quote to PI PI MUST PROVIDE AT LEAST ONE OF THE FOLLOWING: PROOF OF A PRE-INVESTIGATIONAL NEW DRUG MEETING WITH THE FDA PI returns price quote to NHCDR 2. A LETTER OF CROSS-REFERENCE FOR THE DRUG MASTER FILE NHCDR Ships Cells in LN<sub>2</sub> Dewar Documents included with the WCB Documents included with the MCB

- Certificate of Analysis
- Tissue sourcing document with copy of IRB approval (covers MCB & WCB)
- Instructions for culturing

- Official Certificate of Analysis
- Tissue sourcing document with copy of IRB approval (covers MCB & WCB)
- End-user agreements document (covers MCB only)\*
- Data Package containing additional characterization data

<sup>\*</sup>The end-user agreement document was approved by iPSC Academia Japan, Inc., the company who holds the iPSC intellectual property patents used to generate the MCB and WCB. Obligations required by the document apply to requestors who receive MCB cells from Rutgers.
